## MEDIA RELEASE

### ISLAMORADA, VILLAGE OF ISLANDS

### ELECTRONIC RECYCLING NOW AVAILABLE

The solid waste provider for Islamorada, Veolia ES Solid Waste, has recently contracted with Intercon Solutions to provide electronic waste (e-waste) recycling services to Islamorada residents and businesses. Intercon Solutions is an electronic recycling company with a location in Tampa, Florida. Intercon recycles all types of electronic equipment and material, including computers (mainframes, monitors, terminals, CPU's), printers, fax machines, modems, bridges, hubs, copy machines and consumer electronics (radios, CD players, DVD players, clocks, calculators, telephones and cellular phones).

The equipment is disassembled by hand and separated for various raw material extraction processes and then used to produce new metal and plastic products. None of the materials are dumped into landfills or shipped overseas.

Islamorada residents may drop off electronic materials from 8 a.m. to 4 p.m. Monday through Friday. The drop-off location is Veolia's Islamorada site, 86490 Overseas Highway, easily found on the Bayside behind Sands of the Keys.

Veolia will also collect e-waste directly from homes and will keep it separated from the solid waste stream. Residents must call the Veolia office at 305-853-3433 to arrange for a pick-up of e-waste.

Please call 305-853-3433 with any question and for additional information.
