MEDIA RELEASE

ISLAMORADA, VILLAGE OF ISLANDS

NEW SEWER EMERGENCY PHONE NUMBER

305-359-0813

In order to better serve residents, Islamorada is providing a new local telephone number to ensure prompt communication with U.S. Water, Inc., the operations and maintenance contractor for the Plantation Key Wastewater Treatment Plant. The new phone number, 305-359-0813, went into service on February 1, 2007.

The emergency representative contacted at 305-359-0813 will utilize a calling list to contact the most readily available U.S. Water contractor. The U.S. Water representative will then respond directly to the resident. The goal is a return call to every homeowner in 30 minutes or less for all sewer emergencies.

For non-emergency sewer questions, residents are asked to call Islamorada Village Hall at 305-664-6400.

For questions about an FKAA bill, residents are asked to call 305-853-1999.
