### II- PROJECT SUMMARY

**Project Title:** Islamorada Buoy Maintenance Program FY2020/2021

**Project description and purpose (explain the community need and project merit):**

Islamorada, Village of Islands ("Islamorada") boundaries extend from Tavernier Creek Bridge at mile marker 90.9 to the Channel Two Bridge at mile marker 72.6 and include Plantation Key, Windley Key and Upper and Lower Matecumbe Keys. Known as the "Sportfishing Capital of the World", the waters off Islamorada are heavily trafficked by recreational boaters, fishermen, personal watercraft, kayakers and canoers.

In 2004, to aid in boater safety and facilitate preservation of nearshore waters, flats and reefs, Islamorada established a Buoy Maintenance Program by maintaining a Florida Uniform Waterway Marker compliant system of 120 buoys and a series of fixed informational markers within Islamorada's 12' off-shore jurisdiction in the Atlantic Ocean and the Gulf of Mexico. Due to heavy boat traffic, environmental wear, seasonal storm activity and occasional theft, Islamorada experiences frequent losses and damages to its buoy system. Under Florida law, and pursuant to Islamorada's Ordinance 03-10, Islamorada retains marine contractors to regularly inspect the buoys and markers to ensure operational continuity of the system and the safety of the public and the environment.

To assist with anticipated maintenance costs in FY 2020-2021, Islamorada requests Monroe County reimburse Islamorada \$10,000.00 in Boating Improvement Funds for costs expended in the upcoming fiscal year. Based on prior year's expenditures and FY 20/21 program goals of increased site visitation, permitting additional buoys locations and continued distribution of educational materials, Islamorada's total Buoy Maintenance Program costs for FY 20/21 are estimated to be \$13,750.00. If awarded, Islamorada will contribute \$3,750.00 (25%) cash toward program costs from its FY 20/21 Marina Enterprise Fund budget. Funded program work would include 1) labor for certified divers to inspect buoys and anchors, assemble and install new buoys and anchoring materials as needed; 2) supplies or replacement buoys, anchor assembly lines, property identification and numbering decals; 3) printing and distribution of educational material advising boaters about safety issues and waterway marker information.

This project is meritorious, useful and needed because without the proper buoy system, boating on the waters of Islamorada would be dangerous and confusing for boaters and harmful to our reefs and wildlife.

<p><b>Description of how project may promote public water access:</b></p> <p>Islamorada's Buoy Maintenance Program promotes public water access by utilizing 120 highly visible shallow draft buoys marked with GPS identifiers to determine position, warn of dangers and obstructions in navigation and alert boaters and operators of various Federal, State and Local Regulations. Buoys are safer than fixed signs, reduce the severity of boater/sign collisions and are less expensive to erect and maintain. The buoys are ideal for the low-energy environment surrounding Islamorada, where boaters must remain vigilant of manatees and sea turtles year round. The project also promotes safe boating practices and protection of Islamorada's fragile sealife by exhibiting on every buoy the reminder: IDLE SPEED NO WAKE 300' FROM SHORE". For boating visitors unfamiliar with the area Islamorada also distributes educational brochures and rack cards to increase public safety awareness and knowledge of local boating issues.</p>							
<p><b>Status of project (is the project designed/permited if applicable?)</b></p> <p>The applicant will provide any pertinent documentation to assist with the review and evaluation of the funding request such as site plans (verifying property ownership), design plans, permits, etc.</p> <p>In 2008, pursuant to the Florida Administrative Code and Islamorada's Ordinance 03-10, Islamorada's current waterway marker plan was reviewed and approved by the Florida Fish &amp; Wildlife Conservation Commission's Office of Boating Safety &amp; Waterway Management. The attached FWCC Permit No. 04-018 lists the statewide marker identification numbers, latitude/longitude and sign verbiage for each of the 120 approved buoys in the system.</p>

# ON THE WATER IN ISLAMORADA

Welcome to the Village of Islamorada. The State of Florida has granted Islamorada police powers and jurisdiction into the tidal waters adjacent to its established corporate limits (from Tavernier Creek south to Channel Two Bridge). We have designed this document to help you understand and comply with local, state and federal marine regulations and to help make your time in the waters surrounding Islamorada more enjoyable and safe. The charts are not for navigational purposes, only to assist you in observing the regulations that govern our waters. Please, take care of our waters, coral, seagrass and wildlife and please respect the waters surrounding Islamorada, The Fishing Capital of the World.

## Markers and Definitions: **All regulations are strictly enforced!**

All vessels must be at **IDLE SPEED/NO WAKE** while motoring in manmade canals and basins. Idle speed is the lowest speed needed to maintain steerage and headway. No wake should be produced at this speed.

Much of Tavernier Creek, Snake Creek and Whale Harbor Channel are marked as **SLOW SPEED/MINIMUM WAKE**. This means your boat must be settled in the water, not plowing, and producing little or no wake. See map on opposite side for specific locations.

MOTOR OR POLE/PAULIE YOUR BOAT WITH YOUR MOTOR TURNED UP.

require compliance. NO WAKE is the lowest speed needed to maintain steerage.

## No Discharge Zone:

All waters within three miles of the shoreline of Islamorada and the Florida Keys are designated as No Discharge Zones. Simply put, any vessel with a toilet or holding tank, which is capable of flushing into the water, is required to have the release valve locked into position to prevent direct discharge of treated or untreated water into our waters. # Tips on Boater Safety, Courtesy, Etiquette and Stewardship:

*PVC stakes such as these designate sea grass restoration in progress to heal prop scars.*

## No habitat - No fish - Get it?

Healthy seagrass is key. Did you know at some life stage, 70% of the world's harvested seafood species depend upon seagrass and other estuarine habitat for survival? The seagrass that surrounds Islamorada is vital to our water quality and marine food webs. What can you do to help?

- Wear polarized sunglasses, which helps you distinguish deep water from shallow grass flats.
- Pole or row your boat through shallow water flats instead of using your motor.
- Don't pollute. Be proactive and pick up all trash seen while you are on the water.

- Don't leave your fishing line behind. Monofilament line kills fish and lower units on motors. Place all your monofilament line in a container on your boat, and then discard in a recyclable container once on shore.

## Responsibility to the Environment and Other Users of the Water!

To preserve and protect the environment and not endanger others, each person must be responsible.

- Islamorada has wind and kite surfers using our near shore waters. They are under sail and have the right-of-way. Be particularly careful when your vessel is near wind/kite surfers because often the surfers have limited visibility and control which is wind dependent.
- By law, you are responsible for your own wake. Slow down when within 300 feet of stationary vessels, mangrove shorelines, and buildings, or try to avoid them entirely.
- Keep a chart on your boat; always know exactly where you are. If you are not sure about water depth, remember green and blue is good and brown is bad.
- Obtain a Florida Boater Safety Certification. Florida Fish and Wildlife offers a How to Boat Smart Certification, which also could reduce your insurance rates. Go to [www.boat-ed.com/fl](http://www.boat-ed.com/fl)
- Do not feed wildlife.
- Ensure your saltwater fishing license is current. Licenses can be obtained by calling 1-888-347-4356.
- Never use your Personal Water Craft (PWC) or boat to disturb, chase or harass wildlife.
- Remember a PWC does not have a reverse nor can it be controlled without power - be careful operating your boat when near a PWC.
- When fueling, don't top off the tank.

## Personal Water Craft (PWC)

The operators of personal watercraft need to be aware of several requirements. Additionally, many people consider PWC

- Personal watercraft may not be operated from 1/2 hour past sunset to 1/2 hour before sunrise. Night operation of a PWC is unlawful.
- A PWC being maneuvered by weaving in congested vessel traffic, jumping the wake of another vessel or swerving to avoid collision (as in playing chicken or spraying another person) is considered reckless operation of a vessel - (a first degree misdemeanor).
- A person must be 14 years of age to operate a PWC in Florida and 18 years of age to rent a PWC.
- Do not operate a PWC on Islamorada's shallow water grass flats to avoid sediments, seagrass and tiny marine life from being sucked into water pumps.

- Many people are on the water to enjoy a quiet and relaxing time. Vary your operating area and remember, it can be very stressful for vessel operators to have a PWC in close proximity to their vessels.

**Please avoid getting within 500 feet of a boat being poled. They are typically in very shallow water and it is considered extremely rude in Islamorada to do so!**

*"Showtime" watercolor by Klaus Schuler*

## Islamorada Mini Season Dive Restrictions

Diving and snorkeling within 300' of residential and/or commercial shoreline within any manmade or private canal; within any public or private marina and/or basin is NOT ALLOWED between Mile Marker 90.9 and 72.6 during lobster Mini Season.

Divers-Down Flag

## Diver Safety

- A divers-down flag (20" by 24") is required to be displayed when divers or snorkelers are in the water. The flag needs to only be 12" by 12" if on a floating flag buoy. The flag should NOT be displayed unless divers are in the water.
- In open water, vessels must make an effort to stay 300 feet away from divers-down flags. If you are within 300 feet, you must be at IDLE SPEED.
- Do not dive without a flag. You may think it is safe to snorkel near the shoreline without a flag, but it is very dangerous.

The COUNTY and CITY shall allow and permit reasonable access to, and inspection of, all documents, papers, letters or other materials in its

possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the COUNTY and CITY in conjunction with this Agreement; and the COUNTY shall have the right to unilaterally cancel this Agreement upon violation of this provision by CITY.

- 9.3 The term "public records" and "records" shall be the same as such term has been defined in Chapter 119, Florida Statutes, including but not limited to any documents, books, data (electronic or hard copy), papers and financial records that result from the CITY or its subcontractors performance of the Services provided in this Agreement.

This paragraph will survive the termination of this Agreement.
- 9.5 The COUNTY and CONTRACTOR shall allow and permit reasonable access to, and inspection of, all documents, records, papers, letters, or other "public record" materials in its possession or under its control subject to the provisions of Chapter 119, Florida Statutes, and made or received by the COUNTY and CONTRACTOR in conjunction with and in connection with this Agreement and related to Agreement performance. If the CONTRACTOR keeps and maintains public records upon completion of the Agreement, the CONTRACTOR shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the COUNTY, upon request from the COUNTY's custodian of records, in a format that is compatible with the information technology systems of the COUNTY.
- (5) A request to inspect or copy public records relating to a COUNTY Agreement must be made directly to the COUNTY, but if the COUNTY does not possess the requested records, the COUNTY shall immediately notify the CONTRACTOR of the request, and the CONTRACTOR must provide the records to the COUNTY or allow the records to be inspected or copied within a reasonable time.

If the CONTRACTOR does not comply with the COUNTY's request for records, the COUNTY shall enforce the public records Agreement provisions in accordance with the Agreement, notwithstanding the COUNTY's option and right to unilaterally cancel this Agreement upon violation of this provision by the CONTRACTOR. A CONTRACTOR who fails to provide the public records to the COUNTY or pursuant to a valid public records request within a reasonable time may be subject to penalties under Chapter 119, Florida Statutes.

The CONTRACTOR shall not transfer custody, release, alter, destroy or otherwise dispose of any public records unless or otherwise provided in this provision or as otherwise provided by law.
