

RESOLUTION NO. 17-03-21

A RESOLUTION OF THE ISLAMORADA, VILLAGE OF ISLANDS, FLORIDA, SUPPORTING UNITED STATES CONGRESSIONAL BILLS S. 279 AND H.B. 833 TO AMEND SECTION 935 OF THE WATER RESOURCES DEVELOPMENT ACT OF 1986 TO FACILITATE THE USE OF FOREIGN OFFSHORE SAND IN BEACH NOURISHMENT PROJECTS; URGING THE UNITED STATES CONGRESS TO EXPEDITE AND FUND THE STUDY TO ALLOW FOREIGN SAND TO BE USED IN BEACH NOURISHMENT PROJECTS IN MIAMI-DADE COUNTY; DIRECTING THE VILLAGE CLERK TO TRANSMIT A COPY OF THIS RESOLUTION TO THE OFFICIALS STATED HEREIN; PROVIDING FOR AUTHORIZATION AND IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, beaches and dunes serve as a vital buffer between coastal infrastructure and the destructive forces of ocean waves and surge during storm events; and

WHEREAS, beach renourishment adds sand to the coastal system, helps keep the erosive power of strong waves from reaching dunes and structures, and buffers against the effects of sea level rise and climate change, thereby protecting coastal properties and the coastal environment; and

WHEREAS, beach renourishment has been an ongoing practice in southeast Florida since the late 1970s, as part of the Dade County Beach Erosion Control and Hurricane Protection Project providing essential economic, environmental and recreational benefit to coastal communities; and

WHEREAS, throughout the region, twenty-four federal and nonfederal beach nourishment projects provide storm damage reduction to infrastructure as well as incidental recreational opportunities; and

WHEREAS, Miami-Dade County, the State of Florida and the Federal government are cost-sharing partners in the Dade County Beach Erosion Control and Hurricane Protection Project; and

WHEREAS, Miami-Dade Broward, Monroe, Palm Beach, Martin and St. Lucie Counties are running out of dependable, economical, and environmentally practicable sand sources; and

WHEREAS, Section 935 of the Water Resources Development Act of 1986 ("WRDA 1986") states that the Army Corps can only use domestic sources of sand for renourishment of this project, unless the Secretary of the Army provides written certification that domestic sources are not available for environmental or economic reasons; and

WHEREAS, in March 2016, the Army Corps completed a Limited Reevaluation Report and Environmental Assessment with a Finding of No Significant Impact with updated economics to justify potential alternative sand sources for future renourishment projects, including Bahamian sand; and

WHEREAS, having the option to import offshore sand from the Bahamas to expedite beach renourishment projects throughout Miami-Dade and Monroe County is important because the sand may be closer to the quality of the sand on Florida beaches than some of the alternative sources listed by the Army Corps; and

WHEREAS, foreign offshore sources may have a lower cost to import than purchasing sand from approved upland sources, and there may be fewer impacts on roads, such as reduced quality of life impacts resulting from truck traffic and fewer carbon emission from trucks hauling the sand; and

WHEREAS, Islamorada, Village of Islands (the "Village") the Village supports a recent decision by the federal government to study the benefits of replenishing Florida beaches with foreign sand; and

WHEREAS, on February 2, 2017, United States Senator Marco Rubio introduced S.279 and United States Congresswoman Lois Frankel introduced companion bill H.B.833 to amend the WRDA with respect to the acquisition of beach fill to eliminate the restriction against offshore sand; and

WHEREAS, the Village Council has determined that it is in the best interest of the Village and its residents to support S.279 and H.B. 833 to eliminate the restriction against offshore sand, and to urge the United States Congress to expedite and fund the study to expedite and fund the study to evaluate the benefits of replenishing Florida beaches with foreign sand.
