**Re: Proposal for Permit Assistance for Slow Speed/Minimum Wake Zone at Starck's Wheel Ditch** Lower Matecumbe Key  
WSP Opportunity No. 2025US409896

Dear Mr. Frezza:

WSP USA Environment & Infrastructure, Inc. (WSP) is pleased to provide this proposal for professional services related to assisting in obtaining permits for a new slow speed/minimum wake zone at Starck's Wheel Ditch adjacent to Lower Matecumbe Key, Village of Islamorada.

### BACKGROUND AND NEED SECTION

Starck's Wheel Ditch is a high-traffic channel adjacent to Lower Matecumbe Key, averaging less than 100 feet in width, with several small tributary creeks popular for recreation. These conditions often lead to conflicts between other boaters, kayakers, and the motorized vessels traveling at high speeds, unable to avoid them. To address these safety concerns, the Village Council directed staff to solicit proposals for the design and permitting of a new slow speed/minimum wake zone within Starck's Wheel Ditch.

### Scope of Services

#### Task 1 : Site Assessment

WSP will assess existing conditions within the proposed project area, including channel width and distribution of environmental resources. Staff will perform a rapid assessment of the benthos and measure the width of the channel in 6 locations to identify suitable buoy locations.

Figure 1

Buoy locations will be selected based on the following criteria:

- Channel width is equal to or less than 75 feet.
- Locations are within 100 feet of the most easterly and westerly locations where channel width is equal to or less than 75 feet.
- The location is devoid of submerged resources (coral, seagrass, sponges, mangroves).
- The Channel is sufficiently wide to ensure navigation is not impeded.

Channel width measurement locations:

1. The most easterly point where the width is equal to or less than 75 feet.
2. The most westerly point where the width is equal to or less than 75 feet.
3. 4 locations spaced at roughly equal distances between the two points listed in 1 & 2.

Location data will be collected with a GPS device capable of a minimum spatial accuracy of 1 meter. Refer to **Figure 1** for the proposed survey and assessment boundaries

Deliverable(s): A report summarizing the findings of the assessment in PDF format to be delivered to the Village project manager.

Performance Measure: Deliverables will be reviewed by the Client to confirm they are complete, accurate, and timely.

## Task 2 : Permitting Services

WSP will work with the Village to obtain regulatory permits, including the request for verification of exemptions from the FDEP and Army Corps of Engineers ("ACOE"), private aids to navigation application from the U.S. Coast Guard, and Florida Uniform Waterway Marker (FUWM) application from FWC required for installation of the waterway markers and signage for the delineated areas.

Deliverable(s): WSP will create permitting packages for submittal to regulatory agencies. WSP will respond to requests for information regarding the permit applications up to two times per application.

Performance Measure: Deliverables will be reviewed by the Client to confirm they are complete, accurate, and timely.

## Task 3 : Design & Engineering

WSP will provide design drawings for the proposed buoys. Drawings will be formatted to Village standards and are anticipated to include the following sheets: Cover, Proposed Site Plan, Schematic Cross Section.

Deliverable(s): Electronic transmission containing 100% Design.

Performance Measure: Deliverables will be reviewed by the Client to confirm they are complete, accurate, and timely.

## Exclusions

This proposal does not include WSP's assistance with pre-construction activities outside of those described within. Should the Village request additional services, including but not limited to public outreach meetings, addressing public comments, or changes to the scope of work, WSP will submit an additional services request to amend this agreement for the Village's review and approval.

## Proposed Fee

Fees for the services described above will be charged on a lump sum basis. The proposed fee includes the labor and expenses that can reasonably be anticipated to complete the scope of services as proposed, as well as travel costs and expendable supplies. The total proposed fee is **\$10,732.00**.

TASKS	TASK FIXED PRICE COST	TASK REIMBURSABLE
Task 1: Site Assessment	\$5,145.00	\$414.00
Task 2: Permitting Services	\$2,815.00	
Task 3: Design & Engineering	\$2,358.00	
<b>Total Fixed Price Cost:</b>	<b>\$10,318.00</b>	
<b>Total Reimbursable Cost:</b>		<b>\$414.00</b>
<b>Overall Total Cost:</b>	<b>\$10,732.00</b>	

This proposal is good for 60 days or the contract end date, whichever is sooner. The terms and conditions of the Non-Exclusive Continuing Services Agreement between Islamorada, Village of Islands, and WSP USA Inc. (WSP), dated August 14, 2020, are incorporated by reference.
