

WASTEWATER UTILITY REPORT

June 2025

Wastewater Connections

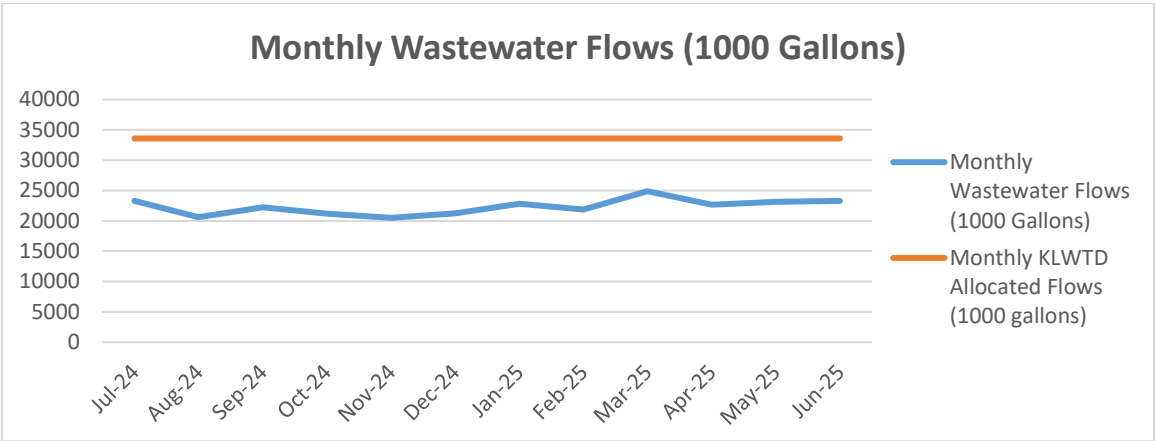

0.09% (4) of 4222 improved parcels are remaining to connect. Those not yet connected are three (3) residential properties and one (1) non-residential properties.

New units constructed after October 2019 are not included in the parcel counts in the chart below.
Wastewater connection for new construction is mandatory before a Certificate of Occupancy is issued.

AREA	Total Parcels	Parcels Connected	% CONNECTED
NPK	1183	1182	99.92%
MPK	691	691	100.00%
SPK/WK	815	814	99.88%
UMK	559	557	99.64%
LMK	974	974	100.00%
TOTALS	4222	4218	99.91%

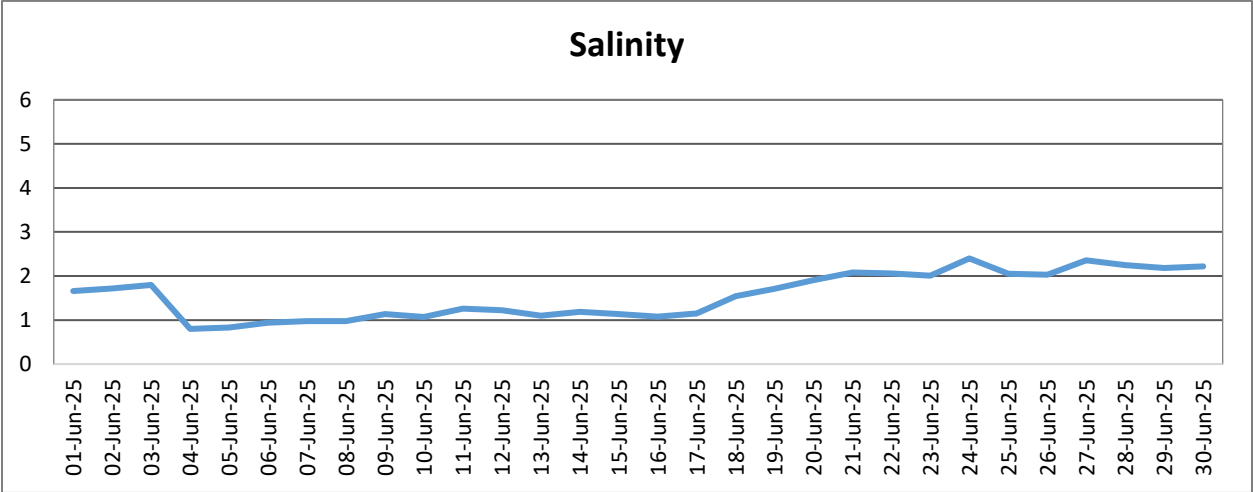

Monthly Wastewater Flows

The Transfer Pump Station pumped 23,320 million gallons in June 2025.

Salinity
